ABOUT ME

I'm a generalist software engineer able to work both independently and as part of a team. Skilled in REST API, React, React Native, and Java Android. I can quite quickly adopt new technologies that arise. Currently, I'm improving my PHP | Laravel skills while also trying to get experience in the whole segment of IT. My professional goal is to acquire knowledge enough to invest in a Cyber Security career in the future.

WORK EXPERIENCE

19/08/2019 – 19/05/2021 – Teresópolis, Brazil

Software Engineer

ASL Softhouse

Working on a small agile team where some of the basic responsibilities were:

- Maintaining and developing medical applications using C#, DevExpress, Java, DICOM Protocol, React JS, Redux, and Saga.
- Writing code to implement predetermined tasks and fixing errors in the existing systems.
- Brainstorming with team members to come up with new ideas and features for the projects.
- Attending meetings regularly in order to review sprints and define tasks to the backlog.

03/01/2016 – 23/07/2016 – Teresópolis, Brazil

Android Developer

Blue Tecnologia

Internship in a little company where the main obligation was to develop an android application using Java programming language and integrate it into the used software through the Firebird database.
